

## MCAS Bowl Show Judging

A one hundred (100) point system will be used whenever possible: twenty (20) points maximum per category. There are five categories:

**Size:** Is the fish full size? Is it small for its species?

**Color:** How does the fish's color look? Some males show more color than females.

**Fins:** Are the fins fully developed? Are they long and flowing? Are they frayed?

**Department:** Is the fish swimming proudly in the middle of the tank, or is he cowering in a corner? Some species show better than others.

**Condition:** Does the fish have sores? Is there bacterial growth? Any loose scales? Does the fish look healthy?
